ENTERPRISE ARCHITECTURE

The speed of change is getting faster all the time. Enterprise Architecture is your secret weapon for managing change and transformation within your organization, identifying the elements preventing fluid success, understanding current state and outlining the correct path to the future state desired.

Yes, it can deliver all of that. Enterprise Architecture is a proven means for aligning IT and Business strategies to best acheive organizational objectives.

DELIVERABLES

Clients receive a repository of EA data and value-added deliverables, presented in an easy-to-use manner with multiple viewpoints represented and minimal overhead required.

The repository, views and reports support:

- Increased collaboration and efficiency across the organization

- Cost reduction & process improvements

- Impact analysis, architecture management & strategy road-mapping

Find answers to your most pressing business questions (see our Use Cases), access reports and dashboards in real-time and evaluate the alignment between Strategy, Operations and Tactical Programs.

SALIENSE
Enterprise Architecture as a Service

Saliense EAaaS is a cloud-based EA solution that provides the EA Tools and Capabilities you need without the expensive overhead of an in-house EA Team.

TIME REQUIRED

From initial engagement to delivery of a fully populated Repository may require as little as 8 to 10 weeks depending upon the complexity and availablity of your data.

Many clients do receive access to useful information and insights during the development phase of this Repository.

INVESTMENT

Saliense EAaaS is Use Case based that can be implemented singularly or stacked over time to enhance the EA Capabilities needed. This approach significantly reduces the cost of purchasing an EA Tool and implementing it with an in-house EA Team.

C-LEVEL EXECUTIVE SUPPORT
Continuous scalability & relevant information for CEO, COO, CIO, CFO.

CUSTOMIZABLE SOLUTION
Cost and speed of delivery are dependent upon each organization's needs and the complexity of their data.

DECISION READY DATA
Leaves in-house Subject Matter Experts available to make critical decisions by providing real-time data.

SALIENSE
Enterprise Architecture as a Service

WHY EA AS A SERVICE?

Enterprise Architecture as a Service is ideal for organizations complex enough to benefit from EA but too small to invest in an internal team.

OUR SOLUTION PACKAGES

There is no one-size-fits-all solution that will address all EA needs. To deliver the right service, no matter where you are starting from, we've developed a series of the most common Use Cases that can be implemented in a phased approach as your organization's EA Capabilities evolve.

Bronze

- Application Rationalization
- Portfolio/Project Management

Silver

- Regulatory Compliance
- Business Modernization
- IT Modernization
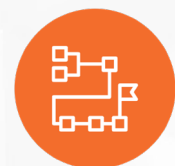

Gold

- Data Governance
- Privacy Compliance
